

Web Engineering 1 - Web Development Final Presentation

What to include in your final presentation?

Here are some key points that you should include in your final presentation for the web engineering 1 project within a **15-20 minute timeframe**:

1. Introduction: Provide a brief overview of the project and its purpose.
2. Project Overview:
 - a. Explain the chosen theme and its relevance to the project requirements.
 - b. Discuss the target audience and the problem the website aims to solve (Purpose and Goals).
3. Design and Development Process:
 - a. Describe the steps taken during the design and development phases e.g. sitemaps, wireframes, prototypes, user testing ... etc.
 - b. Highlight any challenges (if any) faced and how they were addressed.
4. Key Features and Functionality:
 - a. Showcase the main features implemented in the website (You have to do this by demonstrating the live functioning website).
 - b. Demonstrate the functionality and user interactions.
5. Technical Details:
 - a. Provide an overview of the technologies, programming languages, and frameworks used (if any).
 - b. Discuss any notable libraries or tools utilized in the project (if any).
6. Design and User Experience:
 - a. Present the visual design elements and explain the design choices made.
 - b. Discuss how the user experience was considered and enhanced e.g. Responsiveness, Accessibility
7. Code Quality and Best Practices:
 - a. Discuss the coding standards and best practices followed.
 - b. Highlight any particular techniques or methodologies employed.
8. Future Enhancements/Plan:
 - a. Share ideas for potential future enhancements and improvements.
 - b. Discuss how the project could be expanded or extended.

Notes and Guidelines

1. Team Members Readiness:
 - a. Ensure that all team members are prepared and ready at least 5 minutes before their assigned presentation time.
 - b. This will allow for a smooth transition between presenters and avoid any delays.
2. Time Management:
 - a. Strictly adhere to the 15-minute time limit for the presentation to respect the schedules of other teams.
 - b. Practice and time your presentation to ensure it fits within the allocated timeframe.
3. Equal Participation:
 - a. All team members must have an equal opportunity to present during the allotted time.
 - b. Each member's participation will contribute to the evaluation of their personal performance and their understanding of the project.
4. Review Grading Criteria:
 - a. Thoroughly review the grading criteria outlined in the project description.
 - b. Ensure that your presentation covers all the required elements and addresses each criterion appropriately.
